Subject: FOIA Request EPA-HQ-2019-000324 Modified

The FOIA request - EPA-HQ-2019-000324 description has been modified. Additional details for this item are as follows:

- Tracking Number: EPA-HQ-2019-000324
- Requester: Ms. Lisa Rector
- Submitted Date: 10/10/2018
- Description: Per 40 CFR60.534(g) (g) The manufacturer of an affected wood heater model line must notify the Administrator of the date that certification testing is scheduled to begin by email to WoodHeaterReports@epa.gov. This notice must be received by the EPA at least 30 days before the start of testing. The notification of testing must include the manufacturer's name and physical and email addresses, the approved test laboratory's name and physical and email addresses, the third-party certifier name, the model name and number (or, if unavailable, some other way to distinguish between models), and the dates of testing. The laboratory may substitute certification testing of another affected wood heater on the original date in order to ensure regular laboratory testing operations.

We are requesting the copies for all units that have submitted 30 day notice of a manufacturers intent to conduct certification testing since April 15, 2018. We respectfully request all data pertaining to those notification to include all required information including but not limited to the manufacturer names, models, date of test request, test lab and 3rd party certifier. This is a similar request to the one filed in April of 2018. This is information that should be available to agencies interested and with delegated authority to witness testing. Two of NESCAUM members have this authority but do not have access to data that would allow them to witness testing.
